

Hand Held Water Cannon - Specifications

Description	Unit
Pressure rating at 8 ℓ/sec (max)	250 bar working pressure
Length of gun	715 mm
Width of gun	850 mm
Mass of gun	10.2 kg
Clamping height	0.75 m (min)1.6 m (max)
Mass of Cannon prop	24 kg
Standard nozzle size	8 mm
Water consumption	6 to 8 ℓ/sec (standard)
Reaction force at 8 ℓ/sec	112 kg force

Hand Held Water Cannon - Features

- Cannon is attached to an anchored prop to reduce operator fatigue
- Effective over 5 m range
- Pull back trigger will automatically close if the anchor prop becomes dislodged
- Two safety latches on trigger
- Dry shut off
- The gun incorporates an inlet strainer
- High efficiency tungsten carbide nozzle provides a coherent jet
